

## MEET A2Z COMPUTING

**A2Z Computing specialise in support, consultancy and remote monitoring. We are South Wales' longest standing IT Support Company that has been the backbone of South Wales businesses for over 18 years.**

According to our extensive client base we are the number one provider of IT Support.

We aim to support clients with a minimum of 10 computers but will also provide bespoke packages for clients who have a smaller infrastructure.

A2Z Computing was born in 1994 in the education sector; we have been providing continuous support up to the present day within the education sector and will continue to support them. Besides education A2Z Computing has also been consistently supporting businesses and home users.

Our engineers have a wide range of skills and qualifications including BTEC ND, A Levels, BSC (Hons), CCNA, Intel Expertise and BCS Accredited Members. We constantly support our staff through training programs to enhance their skills further and ensure they are competent and confident within their roles.

A2Z Computing are partners with many manufacturers including Intel, Microsoft, Brother, Samsung, Toshiba, Dell, DLink, Nominet...this list is not exhaustive. We have connections within the partnerships that allow us to provide the most reliable and effective solution for our client at the best prices.

A2Z Computing's goal is to ensure our customers get honest, impartial advice that matches their needs. We want to help our clients exceed their business plans and by providing the technology that will encourage their businesses to grow, we will achieve that.

**"There are no problems, only challenges!"**

*Az Ashraf – A2Z Computing Managing Director*
