

## Website Design & Development

A4 A2Z Website Design - 2020-1

At A2Z Computing we offer a full consultancy and planning service tailored to meet your specific needs.

The consultancy session covers all aspects of your potential website. We check a range of items including the below:

- E-Commerce or Standard design
- Theme or template design
- Content of website and purpose
- Audience to ensure it reaches your target
- Marketing plan - social network and blog links
- Easy CMS for full control
- Member only areas and password accounts
- Interactive features including galleries

However you imagine your website to be, A2Z Computing will work closely with you to ensure it exceeds your expectations.

Even if you're on a tight budget we can work with you to get an online presence.

As there is an easy CMS (content management system) you can add and change content as often as you'd like. There are no restrictions or barriers - you create the website to how you would like it to be.

Why pay more than you have too? A2Z Computing guarantee to lower your cost. Bring us an authentic quotation and we'll give you a better package but at a lower rate.

*"I discussed my immediate needs with A2Z Computing. I was delighted that they had anticipated my needs and produced a package which achieved the desired results for an extremely competitive cost."*
