

Ethernet Broadband 1Gb / 10Gb

Ethernet - 2024-07

What can it do for you?

Provides dedicated, reliable and symmetrical high bandwidth services to meet a whatever your business needs, including:

- Point-to-point circuits, connecting SMEs or large businesses, campuses, and public sector sites, or extending a wide area network.
- Backhaul from CityFibre FExs, BT Openreach exchanges, local data centres or other fibre aggregation nodes.

The technical bit?

The service is presented at the aggregation head end and handed over via an ENNI at the CityFibre FEx. The ENNI handover for this service is included at 1Gbps or 10Gbps within the same metro area.

As with all our Ethernet products, Ethernet 1000 Flex enjoys a standard 5-hour repair SLA and is delivered over a core infrastructure designed in rings to maximise resilience.

KEY BENEFITS

Symmetrical 1Gbps capable service to connect single sites to a CityFibre FEx

Typically runs near headline speeds - 200Mbps committed information rate

Delivered over an independent, modern fibre network

ENNI handover included at 1Gbps or 10Gbps

Simple pricing

3 year minimum terms

5-hour repair SLA

Per-circuit and network availability SLAs

Free upgrades to this service from Ethernet 100

BUSINESS CLASS CONNECTIVITY THAT'S DEDICATED, SECURE, FAST AND ALWAYS ON.

Often considered the pinnacle of connectivity solutions, our Ethernet services offer fast upload and download speeds on an exclusive connection, enabling businesses to fulfil their communication needs at speed - simply for Internet access, driving their operations from cloud-based servers, running individual or large group video conferencing and file sharing sessions, or maintaining their own private network.
